U.S. WOMEN	EU SIZING	U.S. MEN
4.8	36	3.3
5.6	37	4.1
6.4	38	4.9
7.2	39	5.7
7.9	40	6.4
8.6	41	7.1
9.5	42	8
10.3	43	8.8
	44	9.6
	45	10.4
	46	11.2
	47	11.9
	48	12.7
	49	13.5
	50	14.3
	51	15.1
	52	15.9

***SHOE FITTING** is best conducted at the end of the day, as feet swell throughout the day. Length and width of feet should be measured while standing. Measure both feet-most people have one foot larger than the other-choose a size that accommodates the bigger foot. Customers switching to Sidi, or from Sidi's more than 5 years old, may not wear the same size. All Sidi's, except for winter shoes, are built on the same last, but different models may not fit identically due to differences in patterns and materials so keep this in mind when switching between Sidi models. Every Sidi shoe (except triathlon models) from 2002 onward is stamped with its size and last type (an M indicates Mega or W indicates women's), usually on the tongue.

***STANDARD WIDTH** is considered as a D width.

***MEGA WIDTH** is 4mm wider across the ball of the foot, more volume, a high instep and wider heel cup, Mega lasts are EE to EEE width. Some cyclists, who may not have exceptionally wide feet but use high-volume orthotics and/or have very high insteps, will be more comfortable in a Mega shoe.

***WOMENS** shoes are built on an anatomically correct women-specific last. Tapered last mimics a woman's more dramatically tapered foot shape. Narrower heel.
