How To Measure For Shoe Size

Step 1:

Place piece of paper under your foot with both the edge of paper and your heels just touching the wall.

Step 2:

With a thin pencil or pen, trace the outline of your foot. Take care not to angle the pen out or in making your foot bigger or smaller on the paper.

Step 3:

Measure the distance from the edge of paper to the tip of your furthest toe. Make sure not to measure at an angle on the page.

*Note: Cycling shoes are meant to be form-fitting and on the snug side. If between sizes, size up.
